“ *As a Nursing Supervisor at T.M.C., I have known and worked closely with Brenda for several years. I have observed Brenda as she carried out her nursing duties and anytime she interacted with patients and their families, she was always compassionate and caring, and always focused on their welfare and meeting their needs. A true professional at all times. She cared for her patients as though they were the only one she was responsible for, always meeting their physical needs as well as sitting at the bedside to visit with or hold their hand in times of fear or anxiety. Brenda was a shining role model for the nursing staff she was in charge of and will be greatly missed by her T.M.C. family. "Brenda, you were truly an Angel of Mercy here on earth, and a most beautiful Heavenly Angel now. We love you.*

“ There are nurses and then there are Real Nurses--Brenda was that special Real nurse.

She had the intelligence and the good old common sense delivered in a beautiful ,calm, humorous way if appropriate----always providing wise guidance to those around her taking care of her patients.

Words can't describe how much we will miss her --her beautiful voice calmed many hectic nights on the 5th floor.

Always it was a joy to witness someone so obviously happy as she glowed when talking of her family---she glowed too when she listened to others talk too about their families --she always was interested as she asked and listened.

Thank you for sharing this beautiful person with us---who beyond the working with----was a wonderful friend.

We love you Brenda and we will miss you with all our hearts.

“ *Here's what I will remember: Brenda's infectious laugh and easy going nature, her strength, and her devotion to her family. Our world is a lesser place without her, but I know she is at perfect peace with Jesus.*

“*Brenda always made me laugh. I loved the twinkle in her eyes and the smile on her face when she talked about her family. She was one of my mentors and helped train me how to be a charge nurse at TMC back when we had a 5 South! I went on to be a nurse on the oncology unit and she called me the day she learned her diagnosis and asked, "what should I do?" I never thought we would be facing this day. I've since moved on from TMC. I was very sad to hear of Brenda's passing. She was a rare light in this world. My prayers are with the family. May you find comfort in realizing all the lives Brenda touched. God bless you.*
