“ I worked with David at the MK&T Railroad station here in Durant okla

David was a great friend and employee and was always ready to give a helping hand

to anyone, seems he never knew a stranger.

I remember one time David came down to the depot one day to visit and after awhile he said he had to go that he was expecting a call from a man about buying his Katy railroad 1870 - 1970 Bicentennial Calendar

I ask David for how much and he replied \$20.00 and i said i will give you that much for it but he said he pretty much promised the other guy.

When David left i called carol David,s wife and was telling her about the the conversation i had with David about the calendar and I said it seems ever who produces the money first should get the calendar and she agreed,I told Carol i was giving James a Railroad Buff that came to the station about every day the \$20.00 and he would be right out to her house and would give her the money in exchange for the calendar and carol replied ok.

I still have the calendar to this day.
