“ *Memory: Working a very long Durant ER shift. A young, dramatic college girl had a "pseudo" drug over dose and needed to provide a witnessed urine sample. In the bathroom the girl told Linda she wasn't going to give a urine sample. Linda quickly put her 2nd & 3rd fingers up the girl's nose and asked if she would give a sample now. The young lady quickly complied without another word. Linda's methods, were Linda's methods, she got results and I loved it! Super ER Nurse Linda! Love you my friend! You are missed!*
