“ *I just found this on Lucille. I entered info once. dont know if this is still available. I knew Lucille at the City of Dallas in 1962. We were friends outside of the office. We lost touch then met again when I went back to work in the City Tax Dept. but then I transferred to another City Dept. and Lucille had married and I lost touch with her again. I am so sorry that she passed away before I could find her again. I thought she had moved to Oklahoma. I remarried so my name is different now. she was a special person.*
