“ *This man don't deserve to be remembered, he was an abusive husband and father to his 1st family, he moved on with his life after his 1st wife had a horrible car accident and was left in a coma and was told she would never be the same, I remember this man coming to the hospital to see her with his new girlfriend and walked away without saying a word to his children. And before my mothers accident he had beat my baby brother until he was almost dead and my grandparents had to take my babybrother in to live with them for a year, and gave my mother time to leave Michael Childers, and when my family finally allowed me to see that man again after all that he molested me his daughter and I know this happened no matter how much he denied it, I told this man he would never see his grandchildren and that I would always keep my children safe from him Michael Childers so this is the real Michael David Childers an abusive child molester*
