“ Phillip Thomas White was my brother, my only brother. He was my big bubba...He was 6 years older than me. Just like any other siblings because of our age differences we had our ups and downs. But when I was 13 years old that was the closest we have ever been... we would go to Walmart at 2 am in the morning to just play with the toys they have there, and look at their electronics because my brother had big love for his video games. He inherited a disease that has passed on from my mothers side of family, its called Huntington's chroea. It is the absolute horrible disease I don't wish it on my worst enemy. We both watch our mother succumbed with that disease. I wish there was a cure. My brother was so sweet, funny, humbled and just all around amazing once he opens up to you. I will miss you Bubba, forever and ever.

“ Phillip and I were together 10 amazing years. I am glad to have loved him through the good times and the bad. My son looked up to him as his dad and loved him just as much as Phillip loved him. The horrible disease he had changed him and made him push both my son and myself away. He will be missed and I am glad to know that he is no longer in pain because of Huntington's Chorea. RIP Phillip, Gary and I both will miss you and love you forever. I know that you have that set of wings and God has made you whole again. Until we meet again, Love Debra and Gary

“ Phillip was a quiet, sweet man. His illness was horrible & made the last year of his life difficult but now he no longer has any pain. He & my son became friends playing video games & I'm glad that they had those times of laughter & fun. When my son moved back in the summer he would always ask to stop & see Phillip when he was home. He did not want to remember Phillip as being sick & in the hospital & could not bring himself to go see him when i told him that Phillip was there but he cried & prayed for him. (My son, Matt is special needs if that explains why) He & Phillip talked about everything under the sun & Phillip never treated him as if he was different. Phillip even came to church many times before his health kept him from going places. My prayers are with you & I feel sure that Phillip is now resting in Gods hands & the horrible Huntington's disease that had taken over his poor body is now gone & he only has peace & joy. Rest in Peace Phillip!
